INDEPENDENT AUDITORS' REPORT

To the Members of
PORTLAND JSX LIMITED

Opinion

We have audited the financial statements of Portland JSX Limited ("the Company") set out on pages 7 to 34, which comprise the statement of financial position as at February 28, 2022, the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at February 28, 2022, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Saint Lucia and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

To the Members of
PORTLAND JSX LIMITED

Key Audit Matter

The key audit matter is that which, in our professional judgement, was of most significance in our audit of the financial statements of the current period. This matter was addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Valuation of investments

The valuation of the Company's unquoted equity investment in Portland Caribbean Fund II, L.P. ('the Fund') and Outsourcing Management Limited ('OML') have been identified as areas of significant risk, given that the measurement of unquoted investments includes significant assumptions and judgments about the performance of the underlying investments, market comparables and discounts used in the valuations.

The valuation estimate involves increased judgement in light of the economic impact of Covid-19 on the underlying investments. The volatility of prices on various markets has increased, which affects the fair value measurement either directly, if fair value is determined based on market prices, or indirectly if a valuation technique is based on inputs that are derived from volatile markets.

Our audit procedures in this area included the following:

- Using our own valuation specialists, assessing the reasonableness of the valuation methodologies employed by the Management Company and the fair value conclusions in respect of the underlying investments up to the reporting date. We considered the provisions of IFRS 13 *Fair Value Measurement* and the sources of data for market comparables, discounts and other assumptions utilised to value the underlying investments.
- Understanding and challenging the key assumptions and judgments affecting the investment valuations prepared by the Management Company.
- Assessing the adequacy and appropriateness of the Company's disclosures relating to its investments, including the valuation techniques and significant inputs in accordance with IFRS 13 (note 18).

INDEPENDENT AUDITORS' REPORT (CONTINUED)

To the Members of
PORTLAND JSX LIMITED

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our auditors' report thereon. The annual report is expected to be made available to us after the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

To the Members of
PORTLAND JSX LIMITED

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is included in the Appendix to this auditors' report. This description, which is located at pages 5 to 6, forms part of our auditors' report.

The engagement partner on the audit resulting in this independent auditors' report is Lisa Brathwaite.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

To the Members of
PORTLAND JSX LIMITED

Appendix to the Independent Auditors' report

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

To the Members of
PORTLAND JSX LIMITED

Appendix to the Independent Auditors' report (continued)

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

PORTLAND JSX LIMITED

Notes to the Financial Statements

Year ended February 28, 2022

(expressed in United States dollars unless otherwise stated)

1. The Company

Portland JSX Limited ("PJX" or "the Company") was incorporated in Saint Lucia on September 15, 2015 as an International Business Company ("IBC") with IBC number 2015-00335, and commenced operations on October 1, 2015. The registered office of the Company is located at the offices of McNamara Corporate Services Inc., 20 Micoud Street, Castries, Saint Lucia. The primary business of the Company is that of a Limited Partner in Portland Caribbean Fund II, L.P. (the "Fund" or the "Partnership"). The Fund has an upfront five-year commitment period to make investments within a term of 10 years, ending July 2024, with the possibility of two additional consecutive one-year terms. During the year, the Company added to its investment portfolio preference shares held in Outsourcing Management Limited (note 6).

PJX is an equity investment vehicle through which Jamaican pension plans, as well as other eligible investors, invest to gain access indirectly to quality investments in the Latin American & Caribbean (LAC) region. The Company is listed on the Jamaica Stock Exchange.

Portland Private Equity II, a Barbados exempted limited company (the "Barbados Management Company") and PPEC Inc., a Canadian company (the "Canadian Management Company" and together with the Barbados Management Company, "Management Companies" or "Managers") are responsible for managing the assets of the Fund, including investigating, analysing, structuring and negotiating potential portfolio investments and monitoring the performance of portfolio investments.

Portland JSX Limited and the Partnership

Under the Partnership Agreement, distributions and allocations to the partners and management fees are dealt with in the following manner:

- (1) Distributions and allocations:
 - (a) income, gains, losses, deductions and credits arising in connection with Short-Term Investments, are allocated in proportion to their relative Capital Contributions, and;
 - (b) Distributions of Disposition Proceeds and Other Portfolio Income received in respect of any Portfolio Investment shall initially be apportioned among the Participating Partners based on their respective Capital Contributions attributable to such Investment. The amount apportioned to the General Partner pursuant to the preceding sentence shall be distributed to the General Partner. The remaining amount apportioned to each Limited Partner that is a Participating Partner shall be further apportioned between (i) such Limited Partner on the one hand and (ii) the General Partner on the other hand and, except as otherwise provided in the Agreement, in the following amounts and order of priority:
 - (i) first, 100% to such Limited Partner, until such Limited Partner has received total distributions equal to its total Capital Contributions to the Partnership.
 - (ii) second, 100% to such Limited Partner until such Limited Partner has received total cumulative distributions equal to a preferred return of 8% per annum, compounded annually, on all amounts distributed in accordance with paragraph (i) not previously made to such Limited Partner.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*1. The Company (continued)

(1) Distributions and allocations (continued):

(b) (continued)

(iii) third, 100% to the General Partner until cumulative distributions to the General Partner equals 20% of the aggregate amount of the distributions made under paragraph (ii) and this paragraph.

(iv) thereafter, 20% to the General Partner and 80% to such Limited Partner.

(2) Management fees and other charges:

The Fund pays a Management Fee of 1.75% of invested capital calculated at the beginning of the quarter that the management fee is related to.

Each Limited Partner is required to bear its portion of management fees and all other partnership fees and expenses, including organisational expenses from the partnership commencement date based on its pro rata share of capital commitments.

In admitting additional Limited Partners or accepting additional Capital Contributions or Capital Commitments from existing Partners, each Limited Partner is treated as having been a party to the Agreement, and each increased Capital Commitment is treated as having been made, as of the Partnership Commencement Date.

2. Statement of compliance and basis of preparation

(a) Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”).

Certain amended standards come into effect during the financial year. The Company has assessed them and determined that none of them had any significant effect on the amounts and disclosures in the financial statements.

Amended standards that have been issued but are not yet effective

At the reporting date, certain amended standards and interpretations have been issued which are not yet effective for the current year and which the Company has not early-adopted. The Company has assessed them with respect to its operations and has determined that the following are relevant:

- Amendments to IAS 1 *Presentation of Financial Statements* are effective for annual periods beginning on or after January 1, 2023 and may be applied earlier. The amendments help companies provide useful accounting policy disclosures.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*2. Statement of compliance and basis of preparation (continued)

(a) Statement of compliance (continued)

Amended standards that have been issued but are not yet effective (continued)

- Amendments to IAS 1 *Presentation of Financial Statements* (continued)

The key amendments to IAS 1 include:

- requiring companies to disclose their *material* accounting policies rather than their *significant* accounting policies;
- clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed; and
- clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material to a company's financial statements.

The amendments are consistent with the refined definition of material:

“Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements”.

- Amendments to IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* are effective for periods beginning on or after January 1, 2023, with early adoption permitted. The amendments introduce a new definition for accounting estimates: clarifying that they are monetary amounts in the financial statements that are subject to measurement uncertainty.

The amendments also clarify the relationship between accounting policies and accounting estimates by specifying that a company develops an accounting estimate to achieve the objective set out by an accounting policy.

Developing an accounting estimate includes both:

- selecting a measurement technique (estimation or valuation technique) – e.g. an estimation technique used to measure a loss allowance for expected credit losses when applying IFRS 9 *Financial Instruments*; and
- choosing the inputs to be used when applying the chosen measurement technique – e.g. the expected cash outflows for determining a provision for warranty obligations when applying IAS 37 *Provisions, Contingent Liabilities and Contingent Assets*.

The effects of changes in such inputs or measurement techniques are changes in accounting estimates.

- Amendments to IAS 1 *Presentation of Financial Statements*, will apply retrospectively for annual reporting periods beginning on or after January 1, 2023. The amendments promote consistency in application and clarify the requirements on liability is current or non-current.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*2. Statement of compliance and basis of preparation (continued)

(a) Statement of compliance (continued)

Amended standards that have been issued but are not yet effective (continued)

- Amendments to IAS 1 *Presentation of Financial Statements* (continued)

Under existing IAS 1 requirements, companies classify a liability as current when they do not have an unconditional right to defer settlement of the liability for at least twelve months after the end of the reporting period. As part of its amendments, the requirement for a right to be unconditional has been removed and instead, now requires that a right to defer settlement must have substance and exist at the end of the reporting period. A company classifies a liability as non-current if it has a right to defer settlement for at least twelve months after the reporting period. It has now been clarified that a right to defer exists only if the company complies with conditions specified in the loan agreement at the end of the reporting period, even if the lender does not test compliance until a later date.

With the amendments, convertible instruments may become current. In light of this, the amendments clarify how a company classifies a liability that includes a counterparty conversion option, which could be recognised as either equity or a liability separately from the liability component under IAS 32. Generally, if a liability has any conversion options that involve a transfer of the company's own equity instruments, these would affect its classification as current or non-current. It has now been clarified that a company can ignore only those conversion options that are recognised as equity when classifying liabilities as current or non-current.

- Amendments to IAS 37 *Provisions, Contingent Liabilities and Contingent Assets* is effective for annual periods beginning on or after January 1, 2022 and clarifies those costs that comprise the costs of fulfilling the contract. The amendments clarify that the 'costs of fulfilling a contract' comprise both the incremental costs – e.g. direct labour and materials; and an allocation of other direct costs – e.g. an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract. This clarification will require entities that apply the 'incremental cost' approach to recognise bigger and potentially more provisions. At the date of initial application, the cumulative effect of applying the amendments is recognised as an opening balance adjustment to retained earnings or other component of equity, as appropriate.
- Annual Improvements to IFRS Standards 2018-2020 cycle contain amendments to certain standards and are effective for annual periods beginning on or after January 1, 2022. The amendment that affects the company's operation is IFRS 9 *Financial Instruments*. IFRS 9 *Financial Instruments* amendment clarifies that – for the purpose of performing the '10 per cent test' for derecognition of financial liabilities – in determining those fees paid net of fees received, a borrower includes only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf.

The Company is assessing the impact that these amended standards will have on its future financial statements when they become effective.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*2. Statement of compliance and basis of preparation (continued)

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis, modified for the revaluation of financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income.

(c) Use of estimates and judgments

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies.

The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 4.

(d) Functional and presentation currency

Except where indicated to be otherwise, these financial statements are presented in United States dollars, which is the Company's functional currency.

3. Summary of significant accounting policies

The company has consistently applied the accounting policies as set out below to all periods presented in these financial statements.

(a) Foreign currency translation

Assets and liabilities denominated in foreign currencies are translated into United States dollars at the exchange rates prevailing at the reporting date. Transactions in foreign currencies are converted at the rates of exchange ruling at the dates of those transactions. Gains and losses arising from exchange rate fluctuations are included in profit or loss.

(b) Cash and cash equivalents

Cash and cash equivalents include bank balances and highly liquid financial assets with original maturities of less than ninety days from date of placement. Cash and short-term deposits are measured at amortised cost.

(c) Securities purchased under resale agreements

Securities purchased under agreements to resell the asset at a fixed price on a future date (reverse repurchase agreements) are treated as collateralised lending. The underlying asset is not recognised in the Company's financial statements. The difference between the purchase and resale price is recognised as interest over the life of the agreements using the effective interest method.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*3. Summary of significant accounting policies (continued)

(d) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and financial liability or equity instrument of another entity.

Financial instruments carried on the statement of financial position include financial investment at fair value through profit or loss, financial investment at fair value through other comprehensive income, cash and cash equivalents, securities purchased under resale agreements, receivables (excluding prepayments), dividend receivable and financial liabilities including bond payable, dividend payable, payables and redeemable preference shares.

(i) Recognition and initial measurement

Financial instruments at fair value through profit or loss are recognised initially on the trade date, which is the date on which the Company becomes party to the contractual provisions of the instrument. Other financial assets and financial liabilities are recognised on the date they are originated.

Immediately after initial recognition, an expected credit loss allowance (ECL) is recognised for financial assets measured at amortised cost and investments in debt instruments measured at FVOCI, which results in an accounting loss being recognised in profit or loss when an asset is newly originated.

Financial instruments at fair value through profit or loss are measured initially at fair value, with transaction costs recognised in profit or loss. Financial instruments not at fair value through profit or loss are measured initially at fair value, plus transaction costs that are directly attributable to its acquisition or issue.

(ii) Classification

On initial recognition, the Company classified its financial assets in the following measurement categories:

- Fair value through profit or loss (FVTPL);
- Fair value through other comprehensive income (FVOCI); or
- Amortised cost.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding (SPPI).

All other financial assets of the Company are measured at FVTPL or FVOCI.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*3. Summary of significant accounting policies (continued)

(d) Financial instruments (continued)

(ii) Classification (continued)

Business model assessments:

In making an assessment of the objective of the business model in which a financial asset is held, the Company considers all of the relevant information about how the business is managed, including:

- the documented investment strategy and the execution of this strategy in practice. This includes whether the investment strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how the investment manager is compensated: e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity. However, the information about sales activity is not considered in isolation, but as part of an overall assessment of how the Company's stated objective for managing the financial assets is achieved and how cash flows are realised.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

The Company has determined that it has two business models.

- Held-to-collect business model: this includes cash and cash equivalents, securities purchased under resale agreements, dividend receivable and receivables (excluding prepayments). These financial assets are held to collect contractual cash flows.
- Other business model: this includes financial investment at FVTPL and FVOCI. These financial assets are managed and their performance is evaluated, on a fair value basis.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*3. Summary of significant accounting policies (continued)

(d) Financial instruments (continued)

(ii) Classification (continued)

Business model assessments (continued):

Assessment of whether contractual cash flows are solely payments of principal and interest (SPPI):

In assessing whether the contractual cash flows are SPPI, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers the following:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- leverage features;
- prepayment and extension features;
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features); and
- features that modify consideration for the time value of money (e.g. periodical reset of interest rates).

Reclassifications

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the day of the first reporting period following the change in business model.

Financial liabilities

The Company classifies financial liabilities as measured at amortised cost.

(iii) Amortised cost measurement

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the effective interest method, of any difference between the amount recognised and the maturity amount, adjusted for any expected credit loss allowance.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*3. Summary of significant accounting policies (continued)

(d) Financial instruments (continued)

(iv) Fair value measurement

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

When available, the Company measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price in an active market, then the Company uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

If an asset or a liability measured at fair value has a bid price and an ask price, then the Company measures assets and long positions at a bid price and liabilities and short positions at an ask price.

The Company recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

(v) Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred.

Any interest in transferred financial assets that is created or retained by the Company is recognised as a separate asset or liability on the statement of financial position.

On derecognition of a financial asset, the difference between the asset's carrying amount and the consideration received is recognised in profit or loss.

The Company derecognises a financial liability when its contractual obligations expire or are discharged or cancelled.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*3. Summary of significant accounting policies (continued)

(d) Financial instruments (continued)

(vi) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legal right to set off the recognised amounts and it intends to settle on a net basis or to realise the asset and settle the liability simultaneously.

(vii) Identification and measurement of impairment

The Company recognises loss allowances for expected credit losses (ECLs) on financial assets measured at amortised cost.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- financial assets that are determined to have low credit risk at the reporting date; and
- other financial assets for which credit risk (i.e., the risk of default occurring over the expected life of the asset) has not increased significantly since initial recognition.

In determining whether the credit risk of a financial asset has increased significantly since initial recognition for estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment, including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

The Company considers a financial asset to have low credit risk when the credit rating of the counterparty is equivalent to the globally understood definition of 'investment grade'.

12-month ECLs are the portion of ECLs that result from default events on a financial instrument that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). Financial instruments for which a 12-month ECL is recognised are referred to as 'Stage 1 financial instruments'.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*3. Summary of significant accounting policies (continued)

(d) Financial instruments (continued)

(vii) Identification and measurement of impairment (continued)

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. Financial instruments for which a lifetime ECL is recognised but which are not credit-impaired are referred to as 'Stage 2 financial instruments'.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as follows:

- *financial assets that are not credit-impaired at the reporting date*: as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive); and
- *financial assets that are credit-impaired at the reporting date*: as the difference between the gross carrying amount and the present value of estimated future cash flows. The Company does not currently have any credit-impaired financial assets.

ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Presentation of allowance for ECLs in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof.

(e) Bond payable

A bond is recognised initially at fair value net of directly attributable transaction costs and is subsequently measured at amortised cost. Any difference between the proceeds received (net of transaction costs) and the redemption value is recognised through profit or loss over the period of the loan using the effective interest method.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*3. Summary of significant accounting policies (continued)

(f) Interest income

Interest income is recognised in profit or loss on the accrual basis using the effective interest method. The 'effective interest rate' is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to its gross carrying amount.

When calculating the effective interest rate for financial instruments other than purchased or originated credit impaired assets, the Company estimates future cash flows considering all contractual terms of the financial instrument, but not ECL.

The calculation of the effective interest rate includes transaction costs and fees and points paid or received that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the acquisition of a financial asset.

Amortised cost and gross carrying amount

See definition of amortised cost at Note 3(d)(iii).

The 'gross carrying amount of a financial asset' is the amortised cost of a financial asset before adjusting for any expected credit loss allowance.

Calculation of interest income

The effective interest rate of a financial asset is calculated on initial recognition of a financial asset. In calculating interest income, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired). The effective interest rate is revised as a result of periodic re-estimation of cash flows of floating rate instruments to reflect movements in market rates of interest.

Presentation

Interest income calculated using the effective interest method presented in the statement of profit or loss includes interest on financial assets measured at amortised cost.

(g) Interest expense

Interest expense is recognised in profit or loss using the effective interest method. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments through the expected life of the financial instrument to the amortised cost of the financial liability.

The calculation of the effective interest rate includes transaction costs and fees and points paid or received that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the issue of the financial liability. The 'amortised cost' of a financial liability is the amount at which the financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation of any difference between that initial amount and the maturity amount.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*3. Summary of significant accounting policies (continued)

(g) Interest expense (continued)

The effective interest rate of a financial liability is calculated on initial recognition of a financial liability. In calculating interest expense, the effective interest rate is applied to the amortised cost of the liability.

Interest expense presented in the statement of profit or loss and OCI includes financial liabilities measured at amortised cost.

(h) Dividend expense on redeemable preference shares

Dividend payable to the holder of redeemable preference share is recognised in the profit or loss as 'finance costs' when the right to made payment is established.

(i) Net gains and losses from financial assets classified as fair value through profit (FVTPL) or loss and fair value through other comprehensive income (FVOCI)

Financial instrument at FVTPL:

This asset is subsequently measured at fair value. Net gains and losses from this financial instrument includes all realised and unrealised fair value changes but excludes interest, and distributions of partnership income and are recognised in profit or loss within 'net fair value gains on financial investment at FVTPL'. Realised gains and losses are calculated using the specific identification method.

Financial instrument at FVOCI:

This asset is subsequently measured at fair value. Dividends are recognised as income in profit or loss when declared, unless the dividend clearly represents a recovery of part of the cost of the investment and are presented within 'dividend income from financial instrument at FVOCI'. Other net gains and losses are recognised in other comprehensive income and are never reclassified to profit or loss.

(j) Taxation

The Company is subject to tax at 1% of its taxable income in Saint Lucia. Effective January 1, 2019, the tax rate on foreign source income in St. Lucia has moved from being 1% to being exempt from taxation. There was no tax charge during the year.

(k) Segment reporting:

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses; whose operating results are regularly reviewed by the entity's Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segment and assesses its performance; and for which discrete financial information is available.

Based on the information presented to and reviewed by the CODM, the Company has no separately identifiable operating segment.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*4. Critical accounting estimates and judgements in applying accounting policies

The Company makes estimates and assumptions that could affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events those are believed to be reasonable under the circumstances.

The fair value of the Company's unquoted investment in the Fund is based on the fair values of the Fund's underlying investments, which include common equity securities and corporate debt. The fair value of such underlying investments and investment held in Outsourcing Management Limited ('OML preference shares') uses valuation models that employ significant unobservable inputs for investments that are traded infrequently or not at all. These unobservable inputs require a higher degree of management judgment and estimation in determining the fair value.

Management judgement and estimation are usually required for the selection of the appropriate valuation model to be used, determination of expected future cash flows from the financial instrument being valued, determination of expected volatilities and correlations, and selection of appropriate discount rates. Consequently, the use of different assumptions and inputs could yield materially different results in the fair value of the Company's investment in the Fund and OML preference shares from those reflected in the statement of financial position.

5. Financial investment at FVTPL

This represents an unquoted equity investment in the Fund. The Fund is managed by Portland Private Equity II, Ltd. and its principal activity is to make private equity and related investments in companies or other entities located principally in certain member and associate member states of CARICOM, certain Development Assistance Committee Countries and certain Cotonou Agreement Countries (the "Target Region"), which excludes Cuba, Mexico and Venezuela. The Fund will also make investments in businesses, the securities of which have no established market and may be restricted with respect to transfer, with the principal objective of appreciation of invested capital.

6. Financial investment at FVOCI

This represents cumulative convertible preference shares held in Outsourcing Management Limited ('OML') – "itel" (the "OML Preference Shares") that were issued at US\$1 per share. Itel is a Business Process company providing voice and non-voice (digital) contact services, as well as high-value customer experience management. Dividend is payable at 5% per annum semi-annually and mature within five years. Subject to certain conditions being met, the preference shares are convertible to Series B ordinary shares at the earlier of three years or the investee attaining an agreed upon pre-money valuation, based on an agreed upon multiple and trailing earnings before interest, taxation, depreciation, and amortization.

7. Cash and cash equivalents

Cash and cash equivalents represents deposits in savings accounts held with a licensed commercial bank, of which \$155,088 (2021: \$NIL) is held for the benefit of JCSD Trustee Services Limited, in respect of bond payable arrangement (note 11).

8. Securities purchased under resale agreements

At the reporting date, the fair value of securities purchased under resale agreements, are estimated to approximate their carrying value, due to their short-term nature.

PORTLAND JSX LIMITED

	<u>\$37,875</u>	<u>38,325</u>

10. Payables

	<u>2022</u>	<u>2021</u>
Management fee payable on redeemable preference shares* [note 19(c)]	5,444	-
Loan review fees payable	-	7,755
Interest payable	57,727	52,934
Withholding tax payable	24	47
Other payables and accruals	<u>43,123</u>	<u>36,187</u>
	<u>\$106,318</u>	<u>96,923</u>

* This represents amount payable to the Managers of the Company related to their share of dividend allocated on redeemable preference shares. See note 12.

11. Bond payable

On April 16, 2021, the Company entered into a bond purchase agreement (five-year term) with JCSD Trustee Services Limited for J\$600,000,000 (US\$3,964,200) to refinance the loan with Victoria Mutual Investments Limited (J\$520,000,000). The bond bears interest at a fixed rate of 8% per annum, payable on a quarterly basis. The principal sum (plus any accrued interest) is repayable by way of a lump sum payment at the end of the term.

As at February 28, 2022, the principal amount outstanding amounted to J\$600,000,000 (US\$3,877,200) [2021: J\$520,000,000 (US\$3,447,080)].

12. Redeemable preference shares

On August 16, 2021, the Company issued US\$5,000,000 redeemable preference shares, less transaction costs of US\$153,922. The proceeds from which was used to invest in preference shares of a Portland Caribbean Fund II, L.P. portfolio company, Outsourcing Management Limited. Dividends of 4% per annum are payable semi-annually, which mature within five years. The principal sum is repayable by way of a lump sum payment at maturity. The difference of 1% between the amount payable on these redeemable preference shares and the amount receivable on the Company's investment in OML preference shares (Note 6), is allocated between the Company and the Manager 80%/20%, respectively. See note 10.

The Company's maximum debt to equity should not exceed 3.0x. Redeemable preference shares do not carry the right to vote. All equity associated with the investment in OML Preference Shares (Note 6) is attributable strictly to the Equity Linked preference shares and should not impact any other shareholders in the Company. This instrument has been structured to preclude recourse against any other assets of the Company, and therefore, equity of any other shareholders.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*13. Share capital and reserves

	<u>2022</u>	<u>2021</u>
(a) Share capital:		
Authorised, issued and fully paid:		
309,968,261 (2020: 309,968,261) ordinary shares	26,392,474	26,392,474
Non-redeemable preference share (i)	1	1
Transaction costs of share issues	(709,522)	(709,522)
	<u>\$25,682,953</u>	<u>25,682,953</u>

- (i) Portland Fund II GP, Inc., the general partner of the Fund, holds 1 (2021: 1) non-redeemable preference share in the Company. The preference share gives Portland Fund II GP, Inc. the right to receive notice of, attend, vote at and demand a poll at general meetings of any class of shareholders of the Company. On all decisions in general meetings and on all resolutions, Portland Fund II GP, Inc. is entitled to 51% of the votes of the shareholders. The preference share gives no right to dividends or distribution of assets in the event of a wind-up of the Company.

(b) Investment revaluation reserve:

This represents the accumulative net change in the fair value of financial asset measured at FVOCI, until the asset is derecognised or reclassified.

14. Expenses by nature

	<u>2022</u>	<u>2021</u>
Accounting fees	21,932	25,720
Audit fees	36,155	29,691
Directors' fees [note 19(d)]	16,250	19,518
Other operating expenses	183,881	33,257
Administrative expenses	27,562	18,242
Irrecoverable withholding taxes	663	529

Management fees related to redeemable preference shares [note 19(d)]	5,444	-
Management fees [note 19(d)]	453,749	451,583
	<u>\$860,866</u>	<u>604,510</u>

15. Earning per ordinary share

The calculation of basic earnings per ordinary share is calculated by dividing the profit for the year by the weighted average number of ordinary shares in issue for the year of 309,968,261 (2021: 309,968,261).

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*16. Financial risk management

(a) Overview and risk management framework

The Company's activities expose it to a variety of financial risks and those activities involve the analysis, evaluation, acceptance and management of some degree of risk or combination of risks. The Company's aim is therefore to achieve an appropriate balance between risks and return and minimise potential adverse effects on its financial performance.

The Company's risk management policies are designed to identify and analyse these risks, to set appropriate risk limits and controls, and to monitor the risks and adherence to limits by means of reliable and up-to date information systems. The Company regularly reviews its risk management policies and systems to reflect changes in markets, products and emerging best practice. Risk management is carried out by the Management Companies under policies approved by the Board of Directors. The Board provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments. The most important types of risk are credit risk, liquidity risk, market risk and other operational risk.

(b) Credit risk

(i) Credit risk management

The Company takes on exposure to credit risk, which is the risk that a counterparty will cause a financial loss for the Company by failing to discharge an obligation. Credit exposure arises principally on investment activities that bring debt securities into the Company's asset portfolio.

(ii) Credit risk exposure

Credit risk exposures reflected on the statement of financial position relate to cash and cash equivalents, securities purchased under resale agreements and investments in the Fund and OML preference shares.

The Company has a significant concentration of credit risk at the reporting date in respect of certain financial investments with the Fund, OML preference shares and cash and cash equivalents and securities purchased under resale agreements with First Global Bank Limited and Victoria Mutual Wealth Management Limited. The maximum credit exposure is limited to the carrying value of financial assets on the statement of financial position.

(c) Market risk

The Company takes on exposure to market risk, which is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk arises from open positions in investment products, which are exposed to general and specific market movements and changes in the level of volatility of market rates or prices such as interest rates, credit spreads, foreign exchange rates and equity prices. The market risk arising from investment activities is determined by the Management Companies and monitored by the Board of Directors separately.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*16. Financial risk management (continued)

(c) Market risk (continued)

(i) Interest rate risk

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market interest rates.

The Company has no exposure to this risk as it has no variable rate interest-bearing financial instruments.

(ii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The main currency giving rise to this risk is the Jamaica dollar (J\$).

At the reporting date, the J\$ dollar equivalents of net foreign currency liabilities were as follows:

	<u>2022</u>	<u>2021</u>
	J\$'000	J\$'000
Bond payable	(600,000)	(520,000)
Cash and cash equivalents	24,000	-
Security purchased under resale agreements	3,711	1,112
Interest payable	<u>(8,933)</u>	<u>(7,985)</u>
	<u>(581,222)</u>	<u>(526,873)</u>

The exchange rate of the US\$ to the J\$ at the reporting date was \$154.75 (2020: US\$1.00 to J\$150.85).

Foreign currency sensitivity

The effect of a 6% (2021: 6%) strengthening of the United States dollar against the Jamaica dollar at the reporting date would, all other variables held constant, have resulted in an increase in profit or loss for the year of US\$212,595 (2020: US\$205,068). A 2% (2021: 2%) weakening in the exchange rate would, on the same basis, have resulted in a decrease in profit or loss of US\$76,650 (2021: US\$63,907).

(d) Liquidity risk

Liquidity risk, also referred to as funding risk, is the risk that the Company will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from an inability to sell a financial asset quickly at, or close to, its fair value. The maturities of assets and liabilities and the ability to replace, at an acceptable cost, interest bearing liabilities as they mature, are important factors in assessing the liquidity of the Company and its exposure to changes in interest rates and exchange rates. Assets available to meet liabilities which includes cash and cash equivalents and securities purchased under resale agreements.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*16. Financial risk management (continued)

(d) Liquidity risk (continued)

The table below presents the residual contractual maturities of undiscounted cash flows (both interest and principal cash flows) of the Company's financial liabilities.

	<u>\$386,818</u>	<u>245,604</u>	<u>4,565,945</u>	<u>5,198,367</u>	<u>3,752,030</u>

17. Capital management

The Company is a Limited Partner in Portland Caribbean Fund II, L.P., a Cayman Islands exempted limited partnership which is one of several parallel partnerships that together comprise the Fund, a private equity fund with a mandate to make investments in equity or debt securities of private companies located in the Caribbean and Latin America.

The Company has made a capital commitment to the Fund which obligates the Company to remit funds, cumulatively not to exceed the amount of the capital commitment, upon receipt of capital call notices.

The Company may co-invest with the Fund in equity or debt securities of private companies located in the Caribbean and Latin America. The Company is permitted to participate in co-investments on a no fee/ no carry basis up to the amount of its capital commitment and thereafter on a negotiated basis.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*17. Capital management (continued)

Pending the receipt of capital call notices in respect of the Company's commitment to the Fund, which may occur over the period of several months or years, and at any time deemed appropriate by the Manager, the Company will invest in short-term instruments, money market funds, or similar temporary instruments.

In addition, the Company may borrow up to 25% of its total assets after giving effect to the borrowing. The Company has no intention to utilise leverage as a strategy, however, borrowing may be required to fund working capital and act as buffer to cover cash flow timing differences.

18. Fair value of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction at the measurement date. Market price is used to determine fair value where an active market exists, as it is the best evidence of the fair value of a financial instrument.

For financial instruments which have no market prices, the fair value has been estimated using present value or other estimation and valuation techniques based on market conditions existing at the reporting date.

The Company measures fair value using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurements.

- Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable either directly (i.e., as prices) or indirectly (i.e., derived from prices). This category includes instruments valued using quoted market prices in active markets that are considered less than active or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.
- Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and those inputs have a significant effect on the instrument valuation. This category includes instruments that are valued based on prices for similar instruments for which significant adjustments or assumptions are made to reflect differences between the instruments.

The values derived from applying these techniques are significantly affected by the underlying assumptions used concerning both the amounts and timing of future cash flows and the discount rates. The valuation of investments at fair value through profit or loss is as described in note 4.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*18. Fair value of financial instruments (continued)

(a) Accounting classifications and fair values:

The Company's investment in the Fund and OML preference shares are measured at fair value and classified at level 3. The following table shows the valuation techniques used in measuring the fair value of the Company's unquoted investments, as well as the significant unobservable inputs used.

Valuation techniques	Significant unobservable inputs	Inter-relationship between key unobservable inputs and fair value measurement
<i>Investment in unquoted partnership and OML</i>	<ul style="list-style-type: none"> Adjusted EBITDA multiple range of 4.30-10.50 times 	The estimated fair value would increase/(decrease) if: <ul style="list-style-type: none"> Adjusted EBITDA was higher/(lower)
Market - comparable companies or external offers	<ul style="list-style-type: none"> 5%-15% liquidity discount 	<ul style="list-style-type: none"> The liquidity discount was (higher)/lower

The table below shows the carrying amount and fair value level of financial assets and financial liabilities.

	2022				
	Carrying amount			Fair value	
	FVTPL	FVOCI	Amortised cost	Level 2	Level 3
	\$	\$	\$	\$	\$
Financial assets measured at fair value:					
Financial investment at FVPTL	35,807,571	-	-	-	35,807,571
Financial investment at FVOCI	-	5,000,000	-	-	5,000,000
Financial assets not measured at fair value:					
Dividend receivable on preference shares	-	-	136,111	136,111	-
Receivables (excluding prepayments)	-	-	98	98	-
Security purchased under resale agreement	-	-	87,918	87,918	-
Cash and cash equivalents	-	-	156,795	156,795	-

	<u>-</u>	<u>-</u>	<u>8,992,419</u>	<u>8,992,419</u>	<u>-</u>

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*18. Fair value of financial instruments (continued)

(a) Accounting classifications and fair values (continued):

	2021				
	Carrying amount			Fair value	
	FVTPL	FVOCI	Amortised cost	Level 2	Level 3
\$	\$	\$	\$	\$	
Financial asset measured at fair value:					
Financial investment at FVPTL	31,431,233	-	-	-	31,431,233
Financial assets not measured at fair value:					
Receivables (excluding prepayments)	-	-	191	191	-
Cash and cash equivalents	-	-	1,709	1,709	-
Security purchased under resale agreement	-	-	83,423	83,423	-
	<u>31,431,233</u>	<u>-</u>	<u>85,323</u>	<u>85,323</u>	<u>31,431,233</u>
Financial liabilities not measured at fair value:					
Due to related parties	-	-	208,027	208,027	-
Payables	-	-	96,923	96,923	-
Bond payable	-	-	3,447,080	3,447,080	-
	<u>-</u>	<u>-</u>	<u>3,752,030</u>	<u>3,752,030</u>	<u>-</u>

Financial assets and financial liabilities in table above are classified at level 2 either due to their short-term nature or when non-current due to no discount anticipated on settlement.

(b) Reconciliation of Level 3 fair value:

The following table shows a reconciliation for the financial investment, measured at fair value:

	Unquoted investment	
	2022	2021
Balance at beginning of the year	31,431,233	28,859,063
Net change in fair value recognised in profit or loss	5,349,614	2,603,701
Additional investments during the year	4,846,078	451,348
Net change in fair value recognised in OCI	153,922	-
Financial investment distributions received	(973,276)	(482,879)
Balance at end of year	<u>\$40,807,571</u>	<u>31,431,233</u>

19. Related party balances and transactions

(a) Definition of related party:

A related party is a person or entity that is related to the entity that is preparing its financial statements (referred to in IAS 24, *Related Party Disclosures* as the “reporting entity,” in this case, the Company).

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*19. Related party balances and transactions (continued)

(a) Definition of related party (continued):

- (1) A person or a close member of that person's family is related to the Company if that person:
- (i) has control or joint control over the Company;
 - (ii) has significant influence over the Company; or
 - (iii) is a member of the key management personnel of the Company or of a parent of the Company.
- (2) An entity is related to the Company if any of the following conditions applies:
- (i) The entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Company or an entity related to the Company.
 - (vi) The entity is controlled, or jointly controlled by a person identified in (1).
 - (vii) A person identified in (1)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
 - (viii) The entity or any member of a group of which it is a part, provides key management personnel services to the Company or to the parent of the Company.

A related party transaction is a transfer of resources, services or obligations between related parties, regardless of whether a price is charged.

(b) Identification of related parties:

The Company has related party relationships with directors, Management companies and funds under the control of the management companies.

(c) The statement of financial position includes balances arising in the ordinary course of business, with related parties as follows:

	<u>2022</u>	<u>2021</u>
	\$	\$
Financial investment at FVTPL	35,807,571	31,431,233
Management fee payable on redeemable preference shares (note 10)	5,444	-
Prepaid management fees* (note 9)	37,777	38,134
Due to related entities - Portland Private Equity II Ltd.*	<u>(53,934)</u>	<u>(208,027)</u>

*These related party balances are interest free and unsecured and are expected to be settled within the next twelve months.

PORTLAND JSX LIMITED

Notes to the Financial Statements (Continued)

Year ended February 28, 2022*(expressed in United States dollars unless otherwise stated)*19. Related party balances and transactions (continued)

(d) The statement of profit or loss and other comprehensive income includes significant transactions in the ordinary course of business, with related parties, as follows:

	<u>2022</u>	<u>2021</u>
	\$	\$
Net fair value gain on financial investment, at FVTPL	5,349,614	2,603,701
Management fees related to redeemable preference shares (note 14)	<u>5,444</u>	<u>-</u>
Key management compensation:		
Management fees (note 14)	(453,749)	(451,583)
Directors' fees (note 14)	(16,250)	(19,518)
	<u>(469,999)</u>	<u>(471,101)</u>

20. Impact of COVID 19

The World Health Organization (WHO) declared the novel Coronavirus (COVID-19) outbreak a pandemic on March 11, 2020. The economy continues to show signs of recovery from the negative impacts of COVID-19 in 2021. The global economy is expected to recover in 2022 with growth being driven by sustained vaccination efforts, greater reopening of the global economy.

There could however be further significant negative financial effects on the Company, depending on factors such as the duration and spread of new variants and possible restrictions and advisories from global Government until the virus is controlled through vaccination, the effects on the financial markets, and the effects on the economy overall, all of which are highly uncertain and cannot be estimated reliably at this time.

The Directors continue to conduct its risk assessments, scenario planning and establish action plans as part of managing the continued operations of the business. At the date of approving these financial statements, the Directors are of the opinion that the Company will be able to meet its obligations for the next twelve months and to continue as a going concern.
